

MEET THE ARTIST

CH - CYNTHIA HOFFMAN

Cynthia fell in love with clay when she was 16 and has never looked back. She was an art teacher and has taught art at all levels--preschool through university. Cynthia still works full time in education and additionally enjoys teaching wheel pottery one night a week at the UW-Madison Wheelhouse. Her current passion is firing a wood-burning kiln with her four "Kiln Sisters." She enjoys the camaraderie and the element of surprise when the kiln is opened after a firing...you can never be 100% sure what a pot will look like after it's been kissed by fire!
