

MEET THE ARTIST

HLT - HILLARY THOMPSON

Hillary's pottery is wheel-thrown, functional ceramics, inspired by the world around us. Some pieces are wood-fired, highlighting the magic that happens in a naturally-heated kiln. Other pieces showcase the flora and fauna of southern Wisconsin, with plants pressed into the clay or birds hand-painted on thrown pots. These ceramics are meant to be used and loved, and to remind you of being outside on a sunny day in a warm breeze, listening to the birds chirping overhead.
