

MEET THE ARTIST

MCP- CRYSTAL McPARLAND

Trained as a chemist, Crystal makes pots that are highly processed to practice celebrating the journey instead of the goal. She wood-fires because the fire, physicality and nature turns the clay into rocks and feeds her soul. Her cups are a self-portrait and a portrait of women she admires. Find more of her work at [instagram.com/mcparland_ceramics](https://www.instagram.com/mcparland_ceramics)
